

Subject Curation:

Did you know that the Library can help to lessen your work load by providing a content curation service? We can search for, select, evaluate and collate resources for your current topic. We will bring together book, online and digital resources (including books, websites, videos, images and newspaper articles) in one easy format, aimed at your particular year level.

We will work closely with you to make sure that the selected content is presented in a way that the students are most likely to benefit from, using free online curation tools such as Livebinders, Pearltrees or Bundlr. Using these tools, the collated resources are hosted online, and can be made available through a link on the Library's website.

Please feel free to come into the Library any day to discuss your requirements with Library staff. Please note we will need at least one week's notice to put together a curation request.
